## MAIN CAMPUS

1625 West Olympic Blvd., Suite 708  
Los Angeles, CA 90015

## SATELLITE LOCATION

100 West Broadway, Suite 740  
Glendale, CA 91210

The ongoing disruption caused by the COVID-19 global pandemic continues to create enormous challenges for colleges throughout the country. Effectively responding to the coronavirus threat and keeping staff and students safe while preserving the learning environment imposes additional costs to both institutions and students. In response to this ongoing crisis, we are working quickly to implement the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA), Pub. L. 116-260 (Dec. 27, 2020), which provides an additional \$22.7 billion for the Higher Education Emergency Relief Fund (HEERF). Of this amount, over \$680 million is available as new formula grants for proprietary institutions of higher education to provide financial aid grants to students.

Unlike the funds available to proprietary institutions under the CARES Act, the only allowable use of funds for the grants provided under section 314(a)(4) of the CRRSAA is to provide financial aid grants to students, which may be used for any component of the student's cost of attendance or for emergency costs that arise due to coronavirus, such as tuition, food, housing, health care (including mental health care) or childcare. If an institution obtains a student's written (or electronic), affirmative consent, an institution is permitted to apply these grants directly to the student's institutional account; however, students must be informed that they retain the option to receive a direct disbursement of the financial aid grant and that an institution may not require that the grant be applied to the student's account.

Unlike the CARES Act, the CRRSAA requires that institutions prioritize students with *exceptional need*, such as students who receive Pell Grants, in awarding financial aid grants to students. However, students do not need to be Pell recipients or students who are eligible for Pell grants to be identified as having exceptional need. In addition, the CRRSAA explicitly provides that financial aid grants to students may be provided to students exclusively enrolled in distance education.

Universal Healthcare Careers College signed and returned to the Department the Certification and Agreement and the assurance that the institution has used, or intends to use, 100% percent of the funds received under Coronavirus Response and Relief Supplemental Appropriations Act, 2021 to provide Emergency Financial Aid Grants to students.

1. The total amount of funds that the institution has received from the Department pursuant to the institution's Certification and Agreement [for] Emergency Financial Aid Grants to Students is \$103,459 to be distributed to eligible students in equitable sums.
2. The estimated total number of students at the institution eligible to participate in programs under Section 484 in Title IV of the Higher Education Act of 1965 and thus eligible to receive Emergency Financial Aid Grants to students under CRRSAA is approximately 146 students.
3. The total number of students who have received an Emergency Financial Aid Grant to students under CRRSAA is 146 total students from all eligible programs.
4. The method(s) used by the institution to determine which students receive Emergency Financial Aid Grants and how much they would receive under CRRSAA. The school utilized the 2019-2020 & 2020-2021 Financial Aid award as a guide to determine the funding amount and ensure as wide distribution to students as possible.
5. Students need not apply for the HEERF monies. All students who are eligible automatically qualify. Students will be contacted and scheduled individually to come in and pick up the check and sign documents.
